

Revenue and Taxation Code 30461-30462.1

CALIFORNIA CODES
REVENUE AND TAXATION CODE
SECTION 30461-30462.1

30461. (a) All amounts required to be paid to the state under this part shall be paid to the board in the form of remittances payable to the State Board of Equalization. Except as provided in subdivision (b) and Section **30461.6**, the board shall transmit the payments to the Treasurer to be deposited in the State Treasury to the credit of the Cigarette Tax Fund, which fund is hereby created.

(b) The board shall transmit amounts received from the penalty assessed pursuant to Section 30474 to the Treasurer for deposit in the General Fund.

30461.6. (a) Notwithstanding Section **30461**, the board shall transmit the revenue derived from the increase in the cigarette tax rate of one mill (\$0.001) per cigarette imposed by Section 30101 on and after January 1, 1994, to the Treasurer to be deposited in the State Treasury to the credit of the Breast Cancer Fund, which fund is hereby created. The Breast Cancer Fund shall consist of two accounts: the Breast Cancer Research Account and the Breast Cancer Control Account. The revenues deposited in the fund shall be divided equally between the two accounts.

(b) The moneys in the accounts within the Breast Cancer Fund shall, upon appropriation by the Legislature, be allocated as follows:

(1) The moneys in the Breast Cancer Research Account shall be allocated for research with respect to the cause, cure, treatment, earlier detection, and prevention of breast cancer as follows:

(A) Ten percent to the Cancer Surveillance Section of the State Department of Health Services for the collection of breast cancer-related data and the conduct of breast cancer-related epidemiological research by the state cancer registry established pursuant to Section 103885 of the Health and Safety Code.

(B) Ninety percent to the Breast Cancer Research Program, that is hereby created at the University of California, for the awarding of grants and contracts to researchers for research with respect to the cause, cure, treatment, prevention, and earlier detection of breast cancer and with respect to the cultural barriers to accessing the health care system for early detection and treatment of breast cancer.

(2) The moneys in the Breast Cancer Control Account shall be allocated to the Breast Cancer Control Program, that is hereby created for the provision of early breast cancer detection services for uninsured and underinsured women.

The Breast Cancer Control Program shall be established in the State Department of Health Services and shall be administered in coordination with the breast and cervical cancer control program established pursuant to Public Law 101-354.

(c) The early breast cancer detection services provided by the Breast Cancer Control Program shall include all of the following:

(1) Screening, including mammography, of women for breast cancer as an early detection health care measure.

(2) After screening, medical referral of screened women and services necessary for definitive diagnosis, including nonradiological techniques or biopsy.

(3) If a positive diagnosis is made, then assistance and advocacy shall be provided to help the person obtain necessary treatment.

(4) Outreach and health education activities to ensure that uninsured and underinsured women are aware of and appropriately utilize the services provided by the Breast Cancer Control Program.

(d) Any entity funded by the Breast Cancer Control Program shall coordinate with other local providers of breast cancer screening, diagnostic, followup, education, and advocacy services to avoid duplication of effort. Any entity funded by the program shall comply with any applicable state and federal standards regarding mammography quality assurance.

(e) Administrative costs of the State Department of Health Services shall not exceed 10 percent of the funds allocated to the Breast Cancer Control Program created pursuant to paragraph (2) of subdivision (b). Indirect costs of the entities funded by this program shall not exceed 12 percent. The department shall define "indirect costs" in accordance with applicable state and federal law.

(f) Any entity funded by the Breast Cancer Control Program shall collect data and maintain records that are determined by the State Department of Health Services to be necessary to facilitate the state department's ability to monitor and evaluate the effectiveness of the entities and the program. Commencing with the program's second year of operation, the State Department of Health Services shall submit an annual report to the Legislature and any other appropriate entity. The costs associated with this report shall be paid from the allocation made pursuant to paragraph (2) of subdivision (b). The report shall describe the activities and effectiveness of the program and shall include, but not be limited to, the following types of information regarding those served by the program:

(1) The number.

(2) The ethnic, geographic, and age breakdown.

(3) The stages of presentation.

(4) The diagnostic and treatment status.

(g) The Breast Cancer Control Program shall be conducted in consultation with the Breast Cancer Research Program created pursuant to subparagraph (B) of paragraph (1) of subdivision (b).

(h) In implementing the Breast Cancer Control Program, the State Department of Health Services may appoint and consult with an advisory panel appointed by the State Director of Health Services and consisting of one ex officio, nonvoting member from the Breast Cancer Research Program, breast

cancer researchers, and representatives from voluntary, nonprofit health organizations, health care professional organizations, breast cancer survivor groups, and breast cancer and health care-related advocacy groups. It is the intent of the Legislature that breast cancer-related survivors and advocates and health advocates for low-income women compose at least one-third of the advisory panel. It is also the intent of the Legislature that the State Department of Health Services collaborate closely with the panel.

(i) It is the intent of the Legislature in enacting the Breast Cancer Control Program to decrease cancer mortality rates attributable to breast cancer among uninsured and underinsured women, with special emphasis on low-income, Native American, and minority women. It is also the intent of the Legislature that the communities served by the Breast Cancer Control Program reflect the ethnic, racial, cultural, and geographic diversity of the state and that the Breast Cancer Control Program fund entities where uninsured and underinsured women are most likely to seek their health care.

(j) The State Department of Health Services or any entity funded by the Breast Cancer Control Program shall collect personal and medical information necessary to administer this program from any individual applying for services under the program. The information shall be confidential and shall not be disclosed other than for purposes directly connected with the administration of this program or except as otherwise provided by law or pursuant to prior written consent of the subject of the information. The State Department of Health Services or any entity funded by the Breast Cancer Control Program may disclose the confidential information to medical personnel and fiscal intermediaries of the state to the extent necessary to administer this program, and to other state public health agencies or medical researchers when the confidential information is necessary to carry out the duties of those agencies or researchers in the investigation, control, or surveillance of breast cancer.

(k) The State Department of Health Services shall adopt regulations to implement this act in accordance with the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government **Code**). The initial adoption of implementing regulations shall be deemed an emergency and shall be considered as necessary for the immediate preservation of the public peace, health and safety, or general welfare, within the meaning of Section 11346.1. Emergency regulations adopted pursuant to this section shall remain in effect for no more than 180 days.

(l) It is the intent of the Legislature in enacting this section that this section supersede and be operative in place of Section **30461.6** of the Revenue and **Taxation Code** as added by Assembly Bill 478 of the 1993-94 Regular Session.

(m) To implement the Breast Cancer Control Program, the State Department of Health Services may contract, to the extent permitted by Section 19130 of the Government **Code**, with public and private entities, or utilize existing health care service provider enrollment and payment mechanisms, including the Medi-Cal program's fiscal intermediary. However, the Medi-Cal program's fiscal intermediary shall only be utilized if services provided under the program are

specifically identified and reimbursed in a manner that does not claim federal financial reimbursement. Any contracts with, and the utilization of, the Medi-Cal program's fiscal intermediary shall not be subject to Chapter 3 (commencing with Section 12100) of Part 2 of Division 2 of the Public Contract **Code**. Contracts to implement the Breast Cancer Control Program entered into by the State Department of Health Services with entities other than the Medi-Cal program's fiscal intermediary shall not be subject to Part 2 (commencing with Section 10100) of Division 2 of the Public Contract **Code**.

30462. (a) All money deposited in the Cigarette Tax Fund under this part is hereby appropriated, subject to the provisions of any budget bill heretofore or hereafter enacted, and shall, upon order of the Controller, be drawn therefrom and allocated for the following purposes:

(1) To pay the refunds authorized by this part.

(2) The balance remaining in the fund shall be transferred to the General Fund of this state on or before the last calendar day of each month.

(b) It is the intent of the Legislature that Section 30111 continues to prohibit the imposition of local taxes by any city, charter city, town, county, charter county, city and county, charter cities and counties, or other political subdivision or agency of this state, on the sale, use, ownership, holding, or other distribution of cigarettes and tobacco products except as provided by Section 30111. The Legislature finds and declares that the need for uniform statewide regulation and collection of cigarette taxes is a matter of statewide concern, and it is the Legislature's intent to regulate the subject matter of cigarette taxes comprehensively and to occupy the field to the exclusion of local action except as specifically provided by Section 30111.

30462.1. Any city may apply to the population research unit of the Department of Finance to estimate its population. The department may make the estimate if in the opinion of the department there is available adequate information upon which to base the estimate. Not less than 25 days nor more than 30 days after the completion of the estimate, the Department of Finance shall file a certified copy thereof with the Controller if the estimate is greater than the current certified population. This certification may be made once each fiscal year.

All payments under subparagraph (B) of paragraph (3) of subdivision (b) of Section 30462 for any allocation subsequent to the filing of the estimate shall be based upon the population so estimated until a subsequent certification is made by the Department of Finance or a subsequent federal decennial census is made.

Population changes based on a federal or state special census or estimate validated by the Department of Finance shall be accepted by the Controller only if certified to him or her at the request of the Department of Finance. The request shall be made only if the census or estimate is greater than the current certified population and shall become effective on the first day of the month following receipt of the certification.

The Department of Finance may assess a reasonable charge, not to exceed the actual cost thereof, for the preparation of population estimates pursuant to this section, which is a proper charge against the city applying therefor. The amount received shall be deposited in the State Treasury as a reimbursement to be credited to the appropriation from which the expenditure is made.

As of May 1, 1988, any population estimate prepared by the Department of Finance pursuant to Section 2227 may be used for all purposes of this section unless a written request not to certify is received by the department from the city within 25 days of completion of the estimate.
